Subject: Impacts on Agricultural Production

As a follow up to your request for information on the impacts on agricultural production from poor water quality I have enclosed a copy of our 1993 report on Delta Water Quality. I have also attached some excerpts from a 1992 report done by the Center for Economic Policy Research at Stanford University. You may wish to contact them about their Phase III and Phase IV Reports (see pages 7-19 for Plan of Study) as these reports may speak to the issues you are exploring. We have not received copies of the Phase III and IV Reports but would appreciate receiving one if you are able to track them down.
